Marshall Nirenberg, Ph.D., Chief  
Laboratory of Biochemical Genetics  
National Heart Institute  
National Institutes of Health  
Bldg. 10, 6-D-18  
Bethesda, Maryland 20014

Dear Dr. Nirenberg:

Enclosed is a copy of the text of the talk you gave at our seminar "Genetic, Metabolic and Developmental Aspects of Mental Retardation". I understand that it is not to be published, but we would like an accurate copy for our files on this conference. Please review it and make any corrections or modifications you see fit. I will see that you receive a final copy of the talk for your own records.

Thank you for your participation and cooperation in this matter.

Best regards,

  
Robert F. Murray, Jr., M.D.  
Chief, Medical Genetics Unit
